

### PRECEPTOR SELECTION GUIDELINES

The preceptor directly supervises students while they are in a practice site. In order to qualify for the position, the preceptor must:

- Be a pharmacist licensed to practice in Puerto Rico by the Puerto Rico Board of Pharmacy
- Be a member of the Puerto Rico Pharmacists Association
- Hold license re-certification by complying with continuing education requirements
- Have at least three years of experience as a licensed pharmacist, one of which must have been in the area of preceptorship
- Demonstrate competence in activities related to the job
- Demonstrate willingness to assume the responsibilities of the preceptorship as stated in the document of preceptor responsibilities
- Have approval of the preceptorship by the supervisor and employer
- Participate in professional and community activities
- Be a role model of professional and ethical conduct
- Be receptive to new ideas
- Demonstrate effective communication skills
- Have good professional relations with other members of the health team in his/her community
